Product Introduction

Succeed from ALT original design concept , Metis A55 series has the biggest heat-dissipation area among other similar products with pure aluminum heat fins. High efficient thermal conduct and heat dissipation will definitely increase product life span. Sketching from traditional A55 light bulb, Metis A55 series is able to replace original 60~80W incandescent lamp directly without alternation of original light fixture. It would save lots cost for users, and use for indoor lighting widely.
